

**CLASS:** Year 5

**DATE:** 24.06.22

## Talking Homework

	<b>QUESTIONS TO ASK YOUR CHILD</b> (this is to stimulate talk with your child – there is no need for you to write anything down or return the sheet to school)
<b>MATHS</b> This week in maths, we have looked at angles, identifying types of angle, degrees in parts of a turn and measuring using a protractor.	What are the 4 types of angle we have studied? How are they different?  How many degrees is a quarter turn? Half turn? $\frac{3}{4}$ turn? Full turn?
<b>ENGLISH</b> We have started reading 'The Adventures of Odysseus'. We have written a character description of the monstrous cyclops, Polythemus.	What adjectives did you use?  What other descriptive features did you use?
<b>SCIENCE</b> This week, we have researched the life cycles of different species and presented them.	What did you find out?  How were some life cycles different?
<b>TOPIC</b> As part of our topic on Ancient Greece, we have learnt about important Greek thinkers and philosophers.	Who did we learn about?  What did they think?

**We hope you enjoy talking at home about your child's learning this week.**

***Every child will be set 3 pieces of Mathletics homework each Monday, to be completed by the following Monday. We will also be testing the spellings each Friday. Thank you.***

***Don't forget Doodle – we need to win the weekly trophy!***
