Talking Homework

	QUESTIONS TO ASK YOUR CHILD <small>(this is to stimulate talk with your child – there is no need for you to write anything down or return the sheet to school)</small>
<p>MATHS This week we have been intensively revising topics in preparation for SATs week. We focused on Multi-step problems, looking at the 'story' behind the task, Statistics when we reminded ourselves of test strategies and we also continued to work on our Arithmetic recall and skills.</p>	<p>What strategies will you use next week? Can you explain some of them to your adult?</p>
<p>ENGLISH Reading As a class, we went through a full practice paper, looking at the different types of skills needed to answer various questions and revised the differences between fiction, non-fiction and poetry comprehension questions. Writing This week we continued the story of 'Macbeth' using drama to deeply explore characters behaviour and motives.</p>	<p>What kinds of questions might you be asked in your Reading Test?</p> <p>What do you think will happen to the Macbeth's?</p>
<p>SCIENCE The theory of Evolution and the people in history who offered ideas on this was our focus in Science this week. We learned about different thoughts which emerged since ancient times and how some can now be disproved by modern scientific research and evidence.</p>	<p>Who was Charles Darwin? What was his theory about Evolution?</p>

We hope you enjoy talking at home about your child's learning this week.

Every child will be set 3 pieces of Mathematics homework each Monday, to be completed by the following Monday. We will also be testing the spellings each Friday. Thank you.

Wonder words: familial, fortune
