Talking Homework

	QUESTIONS TO ASK YOUR CHILD (this is to stimulate talk with your child – there is no need for you to write anything down or return the sheet to school)
<p>MATHS In Maths this week, we have revising our work on Statistics. We have been reading, interpreting and solving problems based on Line Graphs, Two-way tables and a range of Timetables.</p>	<p>What is similar about a Line Graph and a Two-way table?</p>
<p>ENGLISH Reading We completed 'The Miraculous Journey of Edward Tulane' this week and completed a Review on the whole text.</p> <p>Writing To conclude our work on 'Floodland' we wrote a discussion text based on our debating last week. We focussed on organisation, formal language and remaining unbiased.</p>	<p>Can you explain what the main themes of the book were?</p> <p>What was your personal opinion about Dooby as a leader?</p>
<p>SCIENCE This week we constructed Pinhole cameras to demonstrate how images are inverted before they reach our brain and then corrected. We took our cameras outside for further testing.</p>	<p>How did you make your camera?</p> <p>What did you see when you looked through it?</p> <p>Can you explain why?</p>
<p>TOPIC Continuing our work on Biomes, we looked at specific areas of the world where they occur and then linked work on Latitude and Longitude to consider how the Equator plays a large part in the formation of these areas.</p>	<p>What is GMT?</p> <p>Why is it important around the world?</p>

We hope you enjoy talking at home about your child's learning this week.

Every child will be set 3 pieces of Mathletics homework each Monday, to be completed by the following Monday. We will also be testing the spellings each Friday. Thank you.

Wonder words: refraction, self-preservation
