DATE: 18.03.22

Talking Homework

	QUESTIONS TO ASK YOUR CHILD (this is to stimulate talk with your child – there is no need for you to write anything down or return the sheet to school)
MATHS Continuing with our revision, we have been looking at scaling and proportion, carrying on from previous work on ratio. We also reminded ourselves about calculating area and perimeter this week in preparation for more complex work on this.	<p>What is the difference between Area and Perimeter? Are there different ways you can calculate them?</p>
ENGLISH Reading Michael has discovered who is benefactor is on the island – and their relationship is very difficult... Writing We have finished reading 'The Lady of Shalott' this week and have been preparing a formal letter to the King about the tragic events.	<p>Who gave Michael the food and drink? Can you describe him?</p> <p>What did you think of the poem? What are the key features of formal letters?</p>
SCIENCE This week we investigated the brightness of bulbs by constructing electrical circuits and adjusting the components.	<p>What is the relationship between the amount of bulbs in a circuit and their level of brightness?</p>
TOPIC –DT We had a full day on DT this week, designing, creating and then evaluating shelters, which could survive a Tsunami.	<p>What was the highlight of the day? Why do we evaluate projects such as these?</p>

We hope you enjoy talking at home about your child's learning this week.

Every child will be set 3 pieces of Mathletics homework each Monday, to be completed by the following Monday. We will also be testing the spellings each Friday. Thank you.

Wonder words: circuit, conductor
